

## Power Stations

John D. Hotchkiss Ltd have been heavily involved with bespoke machining and fabrication requirements of all shapes and sizes in most of the major power stations within the UK over the past 30 years, all of which rely on tough, high-quality engineering solutions.

At John D. Hotchkiss Ltd we can undertake all types of close tolerance machining work including refurbishing stainless steel impellers, generator parts and stack damper components.

Utilising our extensive machine shop knowledge and fully ISO 9001 2015 accreditation UKAS approval we can offer our customers high quality repairs and overhauls to ensure that the customer can get back to full productivity quickly.
