

## Construction and Agriculture Industries

John D. Hotchkiss Ltd have been involved in the manufacture and supply of small and large engineered parts and refurbishments for the agriculture and construction Industry over the past 25 years.

We have become experts in providing large specialised CNC machined parts and precision engineered components from combine pulleys to flywheel refurbishments, conveyor drive shafts, excavator buckets, process rolls, gearbox repairs and service.

The John D. Hotchkiss team have a wealth of knowledge and experience of stainless steel machining and fabrication within the paper sector and there has been a natural progression towards repair and overhaul in this industry.
